

MIP - Postdoctoral Fellow - Mycobacterial Research (MRL) - Open Pool

Temporary Postdoctoral Fellow positions may become available throughout the year in the Department of Microbiology, Immunology and Pathology. The Mycobacteria Research Laboratories at Colorado State University provides a unique opportunity to conduct basic and translational scientific research on mycobacterial diseases. Currently, there are twenty laboratory groups that conduct mycobacterial research on a wide spectrum of topics including mycobacterial physiology and pathogenesis, tuberculosis vaccine and drug development, leprosy and tuberculosis diagnostics, the study of nontuberculous mycobacterial diseases and Buruli ulcer, and the epidemiology and diagnostics of mycobacterial diseases affecting animals including bovine tuberculosis and Johne's disease.

Our goal is to provide an interactive scientific environment for collaborative research on mycobacterial diseases and to facilitate advanced training of junior scientists and students.

This pool is valid Sept. 1, 2015, to February 29, 2016, at which time the pool will renew and applicants wishing to remain in the pool must reapply.

Application materials: A cover letter addressing research interest(s) /experience(s), a curriculum vitae, unofficial transcript(s), and contact information of three professional references. References will not be contacted without prior notification of candidates.

For full description and to apply go to: <http://jobs.colostate.edu/postings/17802>

CSU is an EO/EA/AA employer and conducts background checks on all final candidates.
